

# Responding to Paris:

How will the UN Climate Treaty affect us on the Sunshine Coast?

Photo by Dorien Gunnels

Global Climate March November 29, 2015-Vancouver

Professor Jim Pawley was a biophysicist at the University of Wisconsin-Madison where he lectured on the causes and effects of global warming and on our possible responses to it. He will offer a brief overview, leading into a Q&A and discussion of possible next steps.
